FULL DESCRIPTION

This exclusive contemporary development features modern apartments and penthouses, available in two- and three-bedroom options.

Most properties boast stunning sea views, as the project is within walking distance of some of Estepona's finest beaches. Its prime location also ensures easy access to a wide range of amenities, including bars, restaurants, hospitals, and golf courses.

Designed with a modern aesthetic, these homes offer bright and spacious interiors that seamlessly connect with expansive terraces. Floor-to-ceiling windows allow natural light to flood the living spaces, enhancing the sense of openness.

The fully equipped, open-plan kitchens integrate effortlessly with the living and dining areas, maximizing functionality and space. Bedrooms feature fitted wardrobes, with the master suite benefiting from an en-suite bathroom.

High-quality porcelain or laminated flooring is installed throughout, and hot/cold air conditioning is pre-installed for year-round comfort.

While upper-floor residences enjoy large terraces, ground-floor apartments come with generous private gardens—perfect for making the most of the Mediterranean climate.

The development's exceptional communal amenities include a swimming pool, playground, social club, gym, steam room, and sauna.

Each property comes with a dedicated parking space and a storage room.
