FULL DESCRIPTION

The first sustainable and organic architectural project in Spain

13 exceptional villas designed with the best qualities. Something more than a project, much more than a word: BE LAGOM is a whole philosophy of life. Lagom talks to us about everything that is "almost perfect", in short, what is appropriate for you: neither excessive nor limited. It is just what you need for your happiness.

Enjoy its more than 5,000 m2 of green spaces formed by Mediterranean gardens with pergolas and orchards, swimming pools and terraces. A natural oasis surrounded by forests, fruit trees and flowers. Connect your essence with nature. These 13 exceptional villas, designed with the best qualities, are in charge of the prestigious architecture studio González & Jacobson, which make each unit an authentic work of art with materials that do not hide their essence, they provide warmth and serve the architecture.

In addition, Be Lagom gardens reflect Laura Pou's passion for landscaping, always in search of beauty, innovation and environmental responsibility."
